

HEALTH TECHNOLOGY

COURSES & DETAILS

CERTIFIED CODING ASSOCIATE

This is a study based on the model curriculum of the American Health Information Management Association designed to provide students with a solid working knowledge of coding as an AHIMA coding associate.

COURSE HOURS 539 **TUITION** \$7,153

CERTIFICATE EARNED AHIMA CCA (Certified Coding Associate)

COURSE REQUIREMENTS None

INTRODUCTION TO MEDICAL TERMINOLOGY (F)

This course is designed to provide the basis for furthering the study of the words used in medicine.

COURSE HOURS 6 **TUITION** \$125

CERTIFICATE EARNED Certificate of Professional Development

COURSE REQUIREMENTS None

ADVANCED MEDICAL TERMINOLOGY (F)

This course is designed to provide advanced knowledge in the study of words used in Medical Terminology.

COURSE HOURS 42 **TUITION** \$485

CERTIFICATE EARNED
Certificate of Professional Development

COURSE REQUIREMENTS Introduction to Medical Terminology or evidence of prior learning.

ANATOMY & PHYSIOLOGY (F)

Anatomy and Physiology is the study of the structure and function of the human body.

COURSE HOURS 45 **TUITION** \$595

CERTIFICATE EARNED Certificate of Professional Development

COURSE REQUIREMENTS Introduction to Medical Terminology or evidence of prior learning.

COURSE TYPES (in parenthesis)

FOUNDATIONAL F CODING COD HEALTH CARE HC

HEALTH TECHNOLOGY

COURSES & DETAILS

DISEASE PATHOLOGY & PHARMACOLOGY (F)

This course focuses on the definition, cause, signs and symptoms, diagnosis, and treatment of specific diseases. Alternative treatments and pharmacotherapy including the action of drugs, the absorption, distribution, metabolism and excretion of drugs by the body are covered.

COURSE HOURS 88 **TUITION** \$1,189

CERTIFICATE EARNED Certificate of Professional Development

COURSE REQUIREMENTS Anatomy & Physiology

INTRODUCTION TO PROCEDURE CODING (COD)

Students learn the basics of procedural coding (CPT) and Ambulatory Patient Classifications (APCs). Fraud and abuse, coding compliance, and compliance programs are also emphasized.

COURSE HOURS 45 **TUITION** \$595

CERTIFICATE EARNED Certificate of Professional Development

COURSE REQUIREMENTS Introduction to Medical Terminology or evidence of prior learning.

ADVANCED PROCEDURE CODING (COD)

This course introduces students to the skills needed for correct coding and billing in Hospital, outpatient clinic, and physician office settings using knowledge gained throughout the program. Topics include the proper use of CMS 1500 form, the UB-04 form, and coding guidelines. Emphasis is placed on diagnostic and procedure coding, HCPCS, use of V codes and E codes, medical necessity, and the use of computer software to complete insurance claims.

COURSE HOURS 45 **TUITION** \$595

CERTIFICATE EARNED Certificate of Professional Development

COURSE REQUIREMENTS Introduction to Procedure Coding or evidence of prior learning.

COURSE TYPES (in parenthesis)

FOUNDATIONAL F **CODING** COD **HEALTH CARE** HC

INTRODUCTION TO ICD-9-CM CODING (COD)

Students are introduced to ICD-9-CM coding and Diagnosis Related Groups (DRGs). Learn the rules, methodology, and sequencing, data sets, documentation requirements, coding ethics and basic reimbursement technologies.

COURSE HOURS 45 **TUITION** \$595

CERTIFICATE EARNED Certificate of Professional Development

COURSE REQUIREMENTS Medical Terminology, Anatomy & Physiology or evidence of prior learning.

ADVANCED DIAGNOSIS CODING (COD)

Students continue their study of diagnostic and hospital based procedural coding. The purpose and use of Healthcare Common Procedure Coding System (HCPCS) and Resource-Based Relative Value Scales (RBRVS) are covered. Students practice coding using advanced scenarios, patient records, and computerized and manual coding systems.

COURSE HOURS 45 **TUITION** \$595

CERTIFICATE EARNED Certificate of Professional Development

COURSE REQUIREMENTS Anatomy & Physiology, Disease Pathology & Pharmacology

REIMBURSEMENT METHODOLOGIES (COD)

Students become familiar with health insurance terminology and the processing cycle of health insurance claims. The billing systems for various health care organizations including federal, Veterans Affairs, state, private, and managed care health insurance plans are introduced. Legal issues and regulations related to reimbursement are covered.

COURSE HOURS 45 **TUITION** \$595

CERTIFICATE EARNED Certificate of Professional Development

COURSE REQUIREMENTS None

COMPUTERS IN HEALTH CARE (HC)

Students learn how computers and technology are used in various health care settings and about software applications that are specific to health information technology. Security, privacy, electronic health care records, electronic records, and technology implementation issues are also covered.

COURSE HOURS 45 **TUITION** \$595

CERTIFICATE EARNED Certificate of Professional Development

COURSE REQUIREMENTS Introduction to Computers and Windows Applications

HEALTH INFORMATION TECHNOLOGY & HEALTH CARE DELIVERY (HC)

Students become familiar with the design, development, and handling of health information data. They learn how information is stored, retained and retrieved in accordance with ethical, legal and voluntary rules, regulations and standards. Numbering and filing systems, documentation and form requirements, screen designs and content, use and structure of health data sets, and how these components relate to primary and secondary record systems are covered. In addition, students also explore government regulations, medical ethics, health care financing, and the responsibilities of health care professionals.

COURSE HOURS 88 **TUITION** \$1,189

CERTIFICATE EARNED Certificate of Professional Development

COURSE REQUIREMENTS Introduction to Computers and Windows Applications

Daytime, evening and weekend class times available • Tuition assistance available • Lifelong job placement assistance • Internship opportunities
